CHAIR BALDUR

The model Baldur, which is made of varnished beech or oak wood, is reminiscent of a school chair and manufactured to European artisan quality. The A-shaped frame and the rounded seat and backrest are characteristic features of the popular retro look. Baldur is available with either a seat pad or a seat and back made of oak wood to contrast with the black-painted beech wood frame. The seat pad comes in either Minea brown or Gordon light grey. The model can be stacked (up to five units) and is well-suited to event spaces thanks to its comparatively light weight.

- Trend tip
- Organic seat and backrest
- huge selection of fabrics
