CHAIR EVALO

Outdoor chair for professional use – robust, stackable and designed for continuous use. Rounded profile and ergonomically shaped backrest for high seating comfort with a modern look. Fiberglass-reinforced frame (PP) for significantly increased stability and high load capacity, while being lightweight and dimensionally stable. UV-stable and weatherproof – retains color and dimensional accuracy even in sun, rain, and temperature changes. Smooth, low-pore surface allows quick and hygienic cleaning. Ideal for universal use in indoor and outdoor areas with high visitor frequency.

- PP stability with low weight – fiberglass-reinforced frame for high load capacity and dimensional stability.
- Ergonomic seating comfort – rounded profile and shaped backrest for long, comfortable sitting.
- Weatherproof & easy to clean – UV-stable, low-pore surface, quick and hygienic to clean.
- High stability with low weight
- Ergonomic seating comfort
- Weatherproof & easy to maintain
