CHAIR HIVO

The Hivo model made of powder-coated aluminium is particularly easy to handle and designed for intensive professional use. The round, on-trend design with horizontal slits in the seat surface and vertical slits in the backrest creates a modern look and allows rainwater to drain away reliably in outdoor areas. Particularly striking is the frame, which fits elegantly and almost seamlessly against the seat and backrest, giving the chair a continuous, premium-quality line. The UV-resistant, weatherproof material guarantees durability on the terrace, balcony and in indoor areas and is also easy to clean. Transparent Floor glides as well as the stackability of the Chair and Armchair make the model additionally practical and high-quality.

- Easy to handle, stackable and made of powder-coated aluminium – robust and easy to care for.
- Trendy round-tube design with vertical seat and horizontal back slits, UV-resistant and weatherproof.
- Premium details such as a flowing frame and transparent glides
