DINING TABLE **ESTORA**

The robust Estora catering table is made of glass fiber reinforced plastic, is UV-resistant and weatherproof, making it ideal for continuous use both outdoors and indoors. Its modern design with rounded corners looks contemporary and can be visually combined with almost all chair models. Thanks to the easy-care material, the table is particularly suitable for areas with high humidity, such as thermal baths, wellness areas, swimming pools or maritime climates. In our load and practical tests, the table met all requirements with flying colors, thus confirming its exceptionally good price-performance ratio. The table is delivered disassembled; the table legs simply need to be mounted on site

- Weatherproof, UV-resistant catering table made of glass fiber reinforced plastic.
- Modern design with rounded corners, flexibly combinable with many chairs.
- Excellent price-performance ratio, also suitable for thermal baths and humid areas.
- Weatherproof and UV-resistant
- Modern design, flexible combinations
- Suitable for spas and wet areas
